

B	I	N	G	O
ridiculous mcgyver	selectively malicious computer system	wild animals freak the fuck out	character jinxes themselves	what the fuck countdown
exploding people/gratuitous death	series of impassioned speeches	random actually good actor	needless supernatural injection into the plot	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
poorly scripted love story	killing off extras to keep budget low	throwaway reference to concurrent disasters elsewhere	instant escalation to 11	ommon sense from the mouth of babes
military intervention	'climate change' invoked	uber religious guy starts freaking out	unexpected survival skills	5 seconds of screentime/spawnkill (x2 spawn camping)
obvious reference to major movie	boob persuasion	needlessly serious injury	acceptance of obviously inescapable danger	omnipotent technology/technology does EVERYTHIN G-tricorder effect

B	I	N	G	O
broken physics	boob persuasion	terrible engineering	product placement	actors obviously hate their lives
needlessly intense eye contact	stupid inconsistency	obvious rich guy-money can't save you now	parent and child are the same age	jinx audience comment
USGS SWAT team	impossible view points	overly obvious foreshadowing	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	no one notices the obvious
all knowing computer	series of impassioned speeches	flashback of previous scene of film to save money	unexpected fighting skills	what the fuck countdown
surprise death in first 5 minutes	obviously over-the-top numbers	uber religious guy starts freaking out	unexpected survival skills	ethnic minority (for the movie) takes the lead role

B	I	N	G	O
longingly gazing at family photo	heavy-handed environmental message	person in charge will doom us all	not making use of obvious resources	no one notices the obvious
obvious reference to major movie	'climate change' invoked	obvious rich guy-money can't save you now	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	communication cuts out
USGS SWAT team	killing off extras to keep budget low	throwaway reference to concurrent disasters elsewhere	product placement	actors obviously hate their lives
all knowing computer	geography permanently changed	totally incompetent character does something important and fails	character jinxes themselves	common sense from the mouth of babes
terrible hacking	indestructible child/pet	comic death	parent and child are the same age	oddly convenient prop

B	I	N	G	O
exploding people/gratuitous death	heavy-handed environmental message	wild animals are smarter than the humans	conspiracy theorist being right	omnipotent technology/technology does EVERYTHING-tricorder effect
explosives solve all problems	clichéd music	random famous actor	only the characters with lines survive	communication cuts out
military intervention	monument gets destroyed	karmic death	product placement	common sense from the mouth of babes
misused science terms	impossible view points	comic death	needless supernatural injection into the plot	scientist explains science to someone who can't/doesn't care/understand
terrible hacking	boob persuasion	needlessly serious injury	runs from obviously inescapable danger	ethnic minority (for the movie) takes the lead role

B	I	N	G	O
bullshit science terms	killing off extras to keep budget low	random famous actor	not making use of obvious resources	actors obviously hate their lives
USGS swat team	nature attacks for no reason	karmic death	acceptance of obviously inescapable danger	5 seconds of screentime/spawnkill (x2 spawn camping)
military intervention	actors trying too hard	budget ran out before film length reached	only the characters with lines survive	someone defies rank to advance to plot
reused CGI	monument gets destroyed	wild animals are smarter than the humans	unexpected fighting skills	they use the wrong units (or correct units incorrectly)
surprise death in first 5 minutes	clichéd music	flashback of previous scene of film to save money	president arrives	what the fuck countdown

B	I	N	G	O
unnecessary diversity	actors trying too hard	paranoid conspiracy theorist starts freaking out	runs from obviously inescapable danger	unintentionally funny serious/intense scene
needlessly intense eye contact	obvious main character in first 5 minutes	obvious rich guy-money can't save you now	product placement	family at home is worried
explosives solve all problems	out of place scientist	random famous actor	mutated/non-natural animal arrives/is made	character comes back from the dead
surprise death in first 5 minutes	heavy-handed environmental message	person in charge will doom us all	unsuccessful character sacrifice	budget blown on one SUPER COOL scene/prop
misused science terms	selectively malicious computer system	death during sex/love scene	instant escalation to 11	actors obviously hate their lives

B	I	N	G	O

all knowing computer	'climate change' invoked	comic death	instant escalation to 11	someone defies rank to advance to plot
USGS SWAT team	heavy-handed environmental message	uber religious guy starts freaking out	incredibly stupid of people	jinx audience comment
broken physics	lack of resolution/abrupt ending	tragic backstory (2 points for flashback)	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	unintentionally funny serious/intense scene
longingly gazing at family photo	geography permanently changed	obvious rich guy-money can't save you now	unexpected fighting skills	repeated narrowly dodged death
misused science terms	monument gets destroyed	terrible engineering	mutated/non-natural animal arrives/is made	5 seconds of screentime/spawnkill (x2 spawn camping)

B	I	N	G	O
USGS SWAT team	monument gets destroyed	totally incompetent character does something important and fails	parent and child are the same age	someone defies rank to advance to plot
surprise death in first 5 minutes	heroic sacrifice	random actually good actor	instant escalation to 11	what the fuck countdown
scientist outside area of expertise	geography permanently changed	needlessly serious injury	unexpected fighting skills	scientist explains science to someone who can't/doesn't care/understand
longingly gazing at family photo	actors trying too hard	throwaway reference to concurrent disasters elsewhere	needless supernatural injection into the plot	common sense from the mouth of babes
broken physics	clichéd music	flashback of previous scene of film to save money	incredibly stupid of people	character comes back from the dead

B	I	N	G	O
broken physics	indestructible child/pet	paranoid conspiracy theorist starts freaking out	one physical trait defines the man	omnipotent technology/technology does EVERYTHING-tricorder effect
USGS swat team	heroic sacrifice	flashback of previous scene of film to save money	runs from obviously inescapable danger	jinx audience comment
needlessly intense eye contact	geography permanently changed	tragic backstory (2 points for flashback)	obvious fanservice scene	what the fuck countdown
poorly scripted love story	stupid inconsistency	totally incompetent character does something important and fails	needless supernatural injection into the plot	they use the wrong units (or correct units incorrectly)
scientist outside area of expertise	killing off extras to keep budget low	needlessly serious injury	only the characters with lines survive	CGI is AWFUL

B	I	N	G	O
scientist outside area of expertise	killing off extras to keep budget low	obvious rich guy-money can't save you now	acceptance of obviously inescapable danger	ommon sense from the mouth of babes
malicious laser targeted nature	actors trying too hard	comic death	not making use of obvious resources	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
poorly scripted love story	monument gets destroyed	wild animals freak the fuck out	unexpected fighting skills	omnipotent technology/technology does EVERYTHIN G-tricorder effect
pointless antagonist	geography permanently changed	random famous actor	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	they use the wrong units (or correct units incorrectly)
bad sound effect (2 points for Wilhelm scream)	cliched music	karmic death	parent and child are the same age	oddly convenient prop

B	I	N	G	O
bullshit science terms	geography permanently changed	flashback of previous scene of film to save money	one physical trait defines the man sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	jinx audience comment
scientist outside area of expertise	killing off extras to keep budget low	overly obvious foreshadowing		ommon sense from the mouth of babes
reused CGI	'climate change' invoked	tries for a sequel (2 points for actually having a sequel)	president arrives	oddly convenient prop
poorly scripted love story	boob persuasion	needlessly serious injury	unexpected fighting skills	character comes back from the dead
all knowing computer	nature waits during drama scenes	wild animals freak the fuck out	character jinxes themselves	omnipotent technology/technology does EVERYTHIN G-tricorder effect

B	I	N	G	O
pointless antagonist	series of impassioned speeches	random actually good actor	unexpected survival skills	no one notices the obvious
bad sound effect (2 points for Wilhelm scream)	obviously over-the top numbers	wild animals are smarter than the humans	one physical trait defines the man	family at home is worried
bullshit science terms	heroic sacrifice	karmic death	needless supernatural injection into the plot	actors obviously hate their lives
all knowing computer	cliched music	obvious rich guy-money can't save you now	unsuccessful rule of cool	unintentionally funny serious/intense scene
poorly scripted love story	indestructible child/pet	totally incompetent character does something important and fails	only the characters with lines survive	character comes back from the dead

B	I	N	G	O
ridiculous mcgyver	impossible view points	karmic death	product placement	5 seconds of screentime/spawnkill (x2 spawn camping)
pointless antagonist	monument gets destroyed	throwaway reference to concurrent disasters elsewhere	unsuccessful character sacrifice	oddly convenient prop
terrible hacking	out of place scientist	power goes out for no reason	character jinxes themselves	CGI is AWFUL
reused CGI	selectively malicious computer system	person in charge will doom us all	misused prop/wtf is this prop	+1000 points if nobody dies
obvious reference to major movie	cliched music	terrible engineering	runs from obviously inescapable danger	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)

B	I	N	G	O
bad sound effect (2 points for Wilhelm scream)	impossible view points	random actually good actor	product placement	jinx audience comment

malicious laser targeted nature	series of impassioned speeches	overly obvious foreshadowing	not making use of obvious resources	unintentionally funny serious/intense scene
pointless antagonist	obvious main character in first 5 minutes	terrible engineering	mutated/non-natural animal arrives/is made	oddly convenient prop

B	I	N	G	O
pointless antagonist	selectively malicious computer system	wild animals are smarter than the humans	unexpected fighting skills	CGI is AWFUL
broken physics	impossible view points	person in charge will doom us all	product placement	jinx audience comment
poorly scripted love story	out of place scientist	budget ran out before film length reached	unexpected survival skills	character comes back from the dead
bullshit science terms	heavy-handed environmental message	flashback of previous scene of film to save money	parent and child are the same age	they use the wrong units (or correct units incorrectly)
obvious reference to major movie	obligatory beach scene	power goes out for no reason	not making use of obvious resources	budget blown on one SUPER COOL scene/prop

B	I	N	G	O
bad sound effect (2 points for Wilhelm scream)	'climate change' invoked	totally incompetent character does something important and fails	needless supernatural injection into the plot	someone defies rank to advance to plot
pointless antagonist	actors trying too hard	needlessly serious injury	one physical trait defines the man	+1000 points if nobody dies
bullshit science terms	stupid inconsistency	uber religious guy starts freaking out	conspiracy theorist being right	scientist explains science to someone who can't/doesn't care/understand
obvious reference to major movie	lack of resolution/abrupt ending	budget ran out before film length reached	product placement	omnipotent technology/technology does EVERYTHIN G-tricorder effect
longingly gazing at family photo	geography permanently changed	random famous actor	unsuccessful character sacrifice	communication cuts out

B	I	N	G	O
surprise death in first 5 minutes	geography permanently changed	terrible engineering	obvious fanservice scene	no one notices the obvious
military intervention	lack of resolution/abrupt ending	power goes out for no reason	president arrives	unintentionally funny serious/intense scene
exploding people/gratuitous death	obvious main character in first 5 minutes	uber religious guy starts freaking out	instant escalation to 11	oddly convenient prop
bad sound effect (2 points for Wilhelm scream)	obviously over-the-top numbers	comic death	unexpected fighting skills	character comes back from the dead
obvious reference to major movie	killing off extras to keep budget low	tries for a sequel (2 points for actually having a sequel)	needless supernatural injection into the plot	CGI is AWFUL

B	I	N	G	O
pointless antagonist	out of place scientist	uber religious guy starts freaking out	character jinxes themselves	CGI is AWFUL
explosives solve all problems	obligatory beach scene	flashback of previous scene of film to save money	only the characters with lines survive	what the fuck countdown
needlessly intense eye contact	obvious main character in first 5 minutes	obvious rich guy-money can't save you now	misused prop/wtf is this prop	oddly convenient prop
USGS swat team	cliched music	paranoid conspiracy theorist starts freaking out	instant escalation to 11	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
scientist outside area of expertise	selectively malicious computer system	budget ran out before film length reached	acceptance of obviously inescapable danger	someone defies rank to advance to plot

B	I	N	G	O
explosives solve all problems	series of impassioned speeches	uber religious guy starts freaking out	parent and child are the same age	jinx audience comment
ridiculous mcgyver	killing off extras to keep budget low	comic death	product placement	oddly convenient prop
pointless antagonist	nature attacks for no reason	paranoid conspiracy theorist starts freaking out	president arrives	+1000 points if nobody dies
exploding people/gratuitous death	nature waits during drama scenes	wild animals are smarter than the humans	unsuccessful character sacrifice	unintentionally funny serious/intense scene
misused science terms	cliched music	death during sex/love scene	unexpected survival skills	ommon sense from the mouth of babes

B	I	N	G	O
bad sound effect (2 points for Wilhelm scream)	nature attacks for no reason	power goes out for no reason	product placement	what the fuck countdown
military intervention	cliched music	flashback of previous scene of film to save money	parent and child are the same age	CGI is AWFUL
longingly gazing at family photo	actors trying too hard	overly obvious foreshadowing	unexpected fighting skills	ommon sense from the mouth of babes
poorly scripted love story	heavy-handed environmental message	comic death	incredibly stupid of people	family at home is worried
scientist outside area of expertise	killing off extras to keep budget low	random actually good actor	needless supernatural injection into the plot	communication cuts out

B	I	N	G	O
ridiculous mcgyver	series of impassioned speeches	terrible engineering	character jinxes themselves	jinx audience comment
pointless antagonist	killing off extras to keep budget low	comic death	needless supernatural injection into the plot	ethnic minority (for the movie) takes the lead role
misused science terms	nature attacks for no reason	wild animals freak the fuck out	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	budget blown on one SUPER COOL scene/prop

unnecessary diversity	'climate change' invoked	power goes out for no reason	conspiracy theorist being right	common sense from the mouth of babes
terrible hacking	impossible view points	tragic backstory (2 points for flashback)	president arrives	omnipotent technology/technology does EVERYTHING-tricorder effect

B	I	N	G	O
explosives solve all problems	selectively malicious computer system	obvious rich guy-money can't save you now	conspiracy theorist being right	someone defies rank to advance to plot
needlessly intense eye contact	impossible view points	uber religious guy starts freaking out	acceptance of obviously inescapable danger	family at home is worried
scientist outside area of expertise	nature attacks for no reason	random famous actor	parent and child are the same age	character comes back from the dead
terrible hacking	boob persuasion	throwaway reference to concurrent disasters elsewhere	character jinxes themselves	omnipotent technology/technology does EVERYTHIN G-tricorder effect
pointless antagonist	obligatory beach scene	karmic death	instant escalation to 11	no one notices the obvious

B	I	N	G	O
scientist outside area of expertise	boob persuasion	random actually good actor	president arrives	ethnic minority (for the movie) takes the lead role
surprise death in first 5 minutes	selectively malicious computer system	wild animals freak the fuck out	needless supernatural injection into the plot	omnipotent technology/technology does EVERYTHIN G-tricorder effect
pointless antagonist	geography permanently changed	obvious rich guy-money can't save you now	misused prop/wtf is this prop	CGI is AWFUL
bullshit science terms	'climate change' invoked	death during sex/love scene	only the characters with lines survive	jinx audience comment
needlessly intense eye contact	lack of resolution/abrupt ending	person in charge will doom us all	product placement	unintentionally funny serious/intense scene

B	I	N	G	O
all knowing computer	obligatory beach scene	comic death	needless supernatural injection into the plot	they use the wrong units (or correct units incorrectly)
surprise death in first 5 minutes	lack of resolution/abrupt ending	tries for a sequel (2 points for actually having a sequel)	product placement	budget blown on one SUPER COOL scene/prop
bullshit science terms	out of place scientist	paranoid conspiracy theorist starts freaking out	misused prop/wtf is this prop	what the fuck countdown
exploding people/gratuitous death	heavy-handed environmental message	throwaway reference to concurrent disasters elsewhere	character jinxes themselves	scientist explains science to someone who can't/doesn't care/understand
misused science terms	boob persuasion	death during sex/love scene	parent and child are the same age	omnipotent technology/technology does EVERYTHIN G-tricorder effect

B	I	N	G	O
terrible hacking	'climate change' invoked	paranoid conspiracy theorist starts freaking out	needless supernatural injection into the plot	someone defies rank to advance to plot
scientist outside area of expertise	actors trying too hard	wild animals freak the fuck out	runs from obviously inescapable danger	jinx audience comment
misused science terms	cliched music	overly obvious foreshadowing	instant escalation to 11	actors obviously hate their lives
longingly gazing at family photo	boob persuasion	totally incompetent character does something important and fails	unexpected fighting skills	CGI is AWFUL
USGS SWAT team	nature waits during drama scenes	tries for a sequel (2 points for actually having a sequel)	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)

B	I	N	G	O
all knowing computer	'climate change' invoked	random actually good actor	only the characters with lines survive	communication cuts out
ridiculous mcgyver	cliched music	wild animals freak the fuck out	unexpected survival skills	jinx audience comment
unnecessary diversity	indestructible child/pet	budget ran out before film length reached	unsuccessful rule of cool	what the fuck countdown
broken physics	impossible view points	person in charge will doom us all	unsuccessful character sacrifice	budget blown on one SUPER COOL scene/prop
exploding people/gratuitous death	nature waits during drama scenes	terrible engineering	instant escalation to 11	CGI is AWFUL

ridiculous mcgyver	heroic sacrifice	comic death	unexpected survival skills	5 seconds of screentime/spawnkill (x2 spawn camping)
reused CGI	heavy-handed environmental message	death during sex/love scene	unexpected fighting skills	what the fuck countdown
bad sound effect (2 points for Wilhelm scream)	selectively malicious computer system	uber religious guy starts freaking out	mutated/non-natural animal arrives/is made	family at home is worried

B	I	N	G	O
exploding people/gratuitous death	boob persuasion	wild animals are smarter than the humans	unexpected survival skills	no one notices the obvious
terrible hacking	obligatory beach scene	wild animals freak the fuck out	conspiracy theorist being right	family at home is worried
scientist outside area of expertise	nature attacks for no reason	tragic backstory (2 points for flashback)	acceptance of obviously inescapable danger	communication cuts out
all knowing computer	monument gets destroyed	random famous actor	not making use of obvious resources	actors obviously hate their lives
longingly gazing at family photo	'climate change' invoked	random actually good actor	obvious fanservice scene	ommon sense from the mouth of babes

B	I	N	G	O
exploding people/gratuitous death	obviously over-the top numbers	comic death	obvious fanservice scene	they use the wrong units (or correct units incorrectly)
surprise death in first 5 minutes	killing off extras to keep budget low	random actually good actor	president arrives	ethnic minority (for the movie) takes the lead role
military intervention	boob persuasion	tragic backstory (2 points for flashback)	unsuccessful rule of cool	actors obviously hate their lives
needlessly intense eye contact	monument gets destroyed	paranoid conspiracy theorist starts freaking out	unexpected survival skills	+1000 points if nobody dies
explosives solve all problems	geography permanently changed	person in charge will doom us all	only the characters with lines survive	what the fuck countdown

B	I	N	G	O
misused science terms	boob persuasion	comic death	one physical trait defines the man	actors obviously hate their lives
USGS SWAT team	heavy-handed environmental message	karmic death	product placement	no one notices the obvious
terrible hacking	heroic sacrifice	person in charge will doom us all	misused prop/wtf is this prop	someone defies rank to advance to plot
scientist outside area of expertise	nature waits during drama scenes	power goes out for no reason	needless supernatural injection into the plot	jinx audience comment
surprise death in first 5 minutes	lack of resolution/abrupt ending	needlessly serious injury	instant escalation to 11	budget blown on one SUPER COOL scene/prop

B	I	N	G	O
reused CGI	stupid inconsistency	totally incompetent character does something important and fails	character jinxes themselves	+1000 points if nobody dies
all knowing computer	actors trying too hard	flashback of previous scene of film to save money	unsuccessful rule of cool	ethnic minority (for the movie) takes the lead role
bad sound effect (2 points for Wilhelm scream)	heroic sacrifice	karmic death	mutated/non-natural animal arrives/is made	oddly convenient prop
military intervention	series of impassioned speeches	obvious rich guy-money can't save you now	conspiracy theorist being right	family at home is worried
poorly scripted love story	boob persuasion	tries for a sequel (2 points for actually having a sequel)	president arrives	budget blown on one SUPER COOL scene/prop

B	I	N	G	O
obvious reference to major movie	actors trying too hard	karmic death	unsuccessful rule of cool	jinx audience comment
terrible hacking	killing off extras to keep budget low	terrible engineering	president arrives	unintentionally funny serious/intense scene
unnecessary diversity	indestructible child/pet	wild animals are smarter than the humans	conspiracy theorist being right	no one notices the obvious
military intervention	geography permanently changed	random actually good actor	runs from obviously inescapable danger	CGI is AWFUL
longingly gazing at family photo	heavy-handed environmental message	tragic backstory (2 points for flashback)	only the characters with lines survive	budget blown on one SUPER COOL scene/prop

B	I	N	G	O
pointless antagonist	nature attacks for no reason	uber religious guy starts freaking out	character jinxes themselves	ommon sense from the mouth of babes
bad sound effect (2 points for Wilhelm scream)	killing off extras to keep budget low	person in charge will doom us all	unexpected survival skills	communication cuts out
malicious laser targeted nature	nature waits during drama scenes	random famous actor	conspiracy theorist being right	unintentionally funny serious/intense scene
surprise death in first 5 minutes	heavy-handed environmental message	totally incompetent character does something important and fails	product placement	character comes back from the dead
needlessly intense eye contact	stupid inconsistency	terrible engineering	unexpected fighting skills	scientist explains science to someone who can't/doesn't care/understand

B	I	N	G	O
bad sound effect (2 points for Wilhelm scream)	heavy-handed environmental message	tragic backstory (2 points for flashback)	acceptance of obviously inescapable danger	ethnic minority (for the movie) takes the lead role
USGS SWAT team	monument gets destroyed	throwaway reference to concurrent disasters elsewhere	instant escalation to 11	unintentionally funny serious/intense scene
misused science terms	geography permanently changed	death during sex/love scene	product placement	someone defies rank to advance to plot
malicious laser targeted nature	nature waits during drama scenes	random actually good actor	not making use of obvious resources	character comes back from the dead

exploding people/gratuitous death	selectively malicious computer system	power goes out for no reason	not making use of obvious resources	jinx audience comment
bad sound effect (2 points for Wilhelm scream)	stupid inconsistency	wild animals are smarter than the humans	unsuccessful character sacrifice	what the fuck countdown
needlessly intense eye contact	obvious main character in first 5 minutes	terrible engineering	only the characters with lines survive	omnipotent technology/technology does EVERYTHIN G-tricorder effect
explosives solve all problems	monument gets destroyed	obvious rich guy-money can't save you now	unexpected survival skills	budget blown on one SUPER COOL scene/prop
surprise death in first 5 minutes	actors trying too hard	random famous actor	needless supernatural injection into the plot	scientist explains science to someone who can't/doesn't care/understand

B	I	N	G	O
longingly gazing at family photo	'climate change' invoked	death during sex/love scene	product placement	someone defies rank to advance to plot
military intervention	actors trying too hard	karmic death	parent and child are the same age	character comes back from the dead
explosives solve all problems	lack of resolution/abrupt ending	overly obvious foreshadowing	one physical trait defines the man	no one notices the obvious
terrible hacking	geography permanently changed	needlessly serious injury	acceptance of obviously inescapable danger	oddly convenient prop
ridiculous mcgyver	series of impassioned speeches	power goes out for no reason	unexpected fighting skills	ethnic minority (for the movie) takes the lead role

B	I	N	G	O
needlessly intense eye contact	nature attacks for no reason	tragic backstory (2 points for flashback)	unsuccessful character sacrifice	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
USGS SWAT team	geography permanently changed	person in charge will doom us all	obvious fanservice scene	someone defies rank to advance to plot
obvious reference to major movie	clichéd music	karmic death	one physical trait defines the man	actors obviously hate their lives
military intervention	impossible view points	flashback of previous scene of film to save money	incredibly stupid of people	budget blown on one SUPER COOL scene/prop
misused science terms	obviously over-the-top numbers	needlessly serious injury	misused prop/wtf is this prop	no one notices the obvious

B	I	N	G	O
pointless antagonist	indestructible child/pet	overly obvious foreshadowing	unexpected survival skills	scientist explains science to someone who can't/doesn't care/understand
poorly scripted love story	monument gets destroyed	tragic backstory (2 points for flashback)	product placement	what the fuck countdown
misused science terms	geography permanently changed	comic death	parent and child are the same age	omnipotent technology/technology does EVERYTHING-tricorder effect
unnecessary diversity	cliched music	power goes out for no reason	conspiracy theorist being right	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
USGS SWAT team	obviously over-the-top numbers	tries for a sequel (2 points for actually having a sequel)	not making use of obvious resources	ethnic minority (for the movie) takes the lead role

B	I	N	G	O
bad sound effect (2 points for Wilhelm scream)	obvious main character in first 5 minutes	power goes out for no reason	character jinxes themselves	+1000 points if nobody dies
bullshit science terms	heavy-handed environmental message	random famous actor	instant escalation to 11	CGI is AWFUL
misused science terms	series of impassioned speeches	tragic backstory (2 points for flashback)	conspiracy theorist being right	ommon sense from the mouth of babes
pointless antagonist	'climate change' invoked	paranoid conspiracy theorist starts freaking out	unsuccessful character sacrifice	omnipotent technology/technology does EVERYTHIN G-tricorder effect
malicious laser targeted nature	heroic sacrifice	comic death	only the characters with lines survive	unintentionally funny serious/intense scene

B	I	N	G	O
longingly gazing at family photo	cliched music	uber religious guy starts freaking out	needless supernatural injection into the plot	jinx audience comment
USGS swat team	stupid inconsistency	karmic death	instant escalation to 11	ethnic minority (for the movie) takes the lead role
bad sound effect (2 points for Wilhelm scream)	'climate change' invoked	death during sex/love scene	mutated/non-natural animal arrives/is made	5 seconds of screentime/spawnkill (x2 spawn camping)
broken physics	killing off extras to keep budget low	random famous actor	obvious fanservice scene	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
bullshit science terms	selectively malicious computer system	needlessly serious injury	not making use of obvious resources	no one notices the obvious

B	I	N	G	O
poorly scripted love story	obligatory beach scene	comic death	unsuccessful rule of cool	budget blown on one SUPER COOL scene/prop
USGS SWAT team	obvious main character in first 5 minutes	random famous actor	obvious fanservice scene	communication cuts out
all knowing computer	obviously over-the-top numbers	power goes out for no reason	one physical trait defines the man	character comes back from the dead

military intervention	series of impassioned speeches	uber religious guy starts freaking out	obvious fanservice scene	no one notices the obvious

B	I	N	G	O
terrible hacking	indestructible child/pet	power goes out for no reason	obvious fanservice scene	budget blown on one SUPER COOL scene/prop
surprise death in first 5 minutes	heroic sacrifice	needlessly serious injury	character jinxes themselves	oddly convenient prop
poorly scripted love story	nature attacks for no reason	budget ran out before film length reached	unexpected survival skills	someone defies rank to advance to plot
bad sound effect (2 points for Wilhelm scream)	'climate change' invoked	obvious rich guy-money can't save you now	instant escalation to 11	no one notices the obvious
broken physics	obviously over-the top numbers	overly obvious foreshadowing	needless supernatural injection into the plot	character comes back from the dead

B	I	N	G	O
broken physics	heavy-handed environmental message	totally incompetent character does something important and fails	obvious fanservice scene	someone defies rank to advance to plot
ridiculous mcgyver	monument gets destroyed	comic death	acceptance of obviously inescapable danger	+1000 points if nobody dies
USGS SWAT team	out of place scientist	terrible engineering	unsuccessful character sacrifice	unintentionally funny serious/intense scene
explosives solve all problems	boob persuasion	power goes out for no reason	not making use of obvious resources	jinx audience comment
surprise death in first 5 minutes	heroic sacrifice	obvious rich guy-money can't save you now	unexpected survival skills	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)

B	I	N	G	O
ridiculous mcgyver	impossible view points	person in charge will doom us all	unsuccessful character sacrifice	unintentionally funny serious/intense scene
reused CGI	series of impassioned speeches	throwaway reference to concurrent disasters elsewhere	product placement	+1000 points if nobody dies
exploding people/gratuitous death	obligatory beach scene	obvious rich guy-money can't save you now	instant escalation to 11	repeated narrowly dodged death
surprise death in first 5 minutes	lack of resolution/abrupt ending	overly obvious foreshadowing	president arrives	what the fuck countdown
needlessly intense eye contact	nature waits during drama scenes	totally incompetent character does something important and fails	misused prop/wtf is this prop	CGI is AWFUL

B	I	N	G	O
unnecessary diversity	lack of resolution/abrupt ending	totally incompetent character does something important and fails	character jinxes themselves	they use the wrong units (or correct units incorrectly)
scientist outside area of expertise	impossible view points	budget ran out before film length reached	only the characters with lines survive	character comes back from the dead
poorly scripted love story	obviously over-the top numbers	flashback of previous scene of film to save money	conspiracy theorist being right	omnipotent technology/technology does EVERYTHIN G-tricorder effect
terrible hacking	actors trying too hard	obvious rich guy-money can't save you now	mutated/non-natural animal arrives/is made	5 seconds of screentime/spawnkill (x2 spawn camping)
military intervention	indestructible child/pet	comic death	president arrives	+1000 points if nobody dies

B	I	N	G	O
bullshit science terms	heavy-handed environmental message	person in charge will doom us all	president arrives	budget blown on one SUPER COOL scene/prop
longingly gazing at family photo	nature waits during drama scenes	power goes out for no reason	mutated/non-natural animal arrives/is made	+1000 points if nobody dies
explosives solve all problems	monument gets destroyed	tragic backstory (2 points for flashback)	obvious fanservice scene	communication cuts out
malicious laser targeted nature	cliched music	random famous actor	unexpected survival skills	family at home is worried
needlessly intense eye contact	geography permanently changed	budget ran out before film length reached	only the characters with lines survive	CGI is AWFUL

B	I	N	G	O
USGS swat team	monument gets destroyed	tries for a sequel (2 points for actually having a sequel)	unsuccessful rule of cool	+1000 points if nobody dies
longingly gazing at family photo	nature attacks for no reason	overly obvious foreshadowing	obvious fanservice scene	ommon sense from the mouth of babes
bad sound effect (2 points for Wilhelm scream)	geography permanently changed	wild animals are smarter than the humans	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	oddly convenient prop
scientist outside area of expertise	cliched music	uber religious guy starts freaking out	conspiracy theorist being right	unintentionally funny serious/intense scene
exploding people/gratuitous death	impossible view points	tragic backstory (2 points for flashback)	acceptance of obviously inescapable danger	no one notices the obvious

B	I	N	G	O
unnecessary diversity	lack of resolution/abrupt ending	terrible engineering	obvious fanservice scene	omnipotent technology/technology does EVERYTHING-tricorder effect
terrible hacking	stupid inconsistency	karmic death	character jinxes themselves	ethnic minority (for the movie) takes the lead role
ridiculous mcgyver	obligatory beach scene	paranoid conspiracy theorist starts freaking out	unsuccessful character sacrifice	common sense from the mouth of babes
explosives solve all problems	indestructible child/pet	budget ran out before film length reached	parent and child are the same age	character comes back from the dead
surprise death in first 5 minutes	impossible view points	uber religious guy starts freaking out	unexpected survival skills	family at home is worried

B	I	N	G	O
USGS SWAT team	out of place scientist	flashback of previous scene of film to save money	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	jinx audience comment
needlessly intense eye contact	boob persuasion	totally incompetent character does something important and fails	conspiracy theorist being right	oddly convenient prop
unnecessary diversity	'climate change' invoked	tragic backstory (2 points for flashback)	runs from obviously inescapable danger	family at home is worried
longingly gazing at family photo	heavy-handed environmental message	paranoid conspiracy theorist starts freaking out	instant escalation to 11	no one notices the obvious
bullshit science terms	impossible view points	obvious rich guy-money can't save you now	unexpected survival skills	unintentionally funny serious/intense scene

B	I	N	G	O
all knowing computer	out of place scientist	totally incompetent character does something important and fails	parent and child are the same age	ethnic minority (for the movie) takes the lead role
unnecessary diversity	heroic sacrifice	power goes out for no reason	acceptance of obviously inescapable danger	actors obviously hate their lives

B	I	N	G	O
malicious laser targeted nature	series of impassioned speeches	paranoid conspiracy theorist starts freaking out	instant escalation to 11	budget blown on one SUPER COOL scene/prop
exploding people/gratuitous death	selectively malicious computer system	uber religious guy starts freaking out	unexpected fighting skills	repeated narrowly dodged death
USGS SWAT team	out of place scientist	budget ran out before film length reached	acceptance of obviously inescapable danger	scientist explains science to someone who can't/doesn't care/understand
unnecessary diversity	obvious main character in first 5 minutes	random actually good actor	unsuccessful character sacrifice	communication cuts out
surprise death in first 5 minutes	indestructible child/pet	overly obvious foreshadowing	obvious fanservice scene	actors obviously hate their lives

B	I	N	G	O
unnecessary diversity	geography permanently changed	totally incompetent character does something important and fails	not making use of obvious resources	ommon sense from the mouth of babes
broken physics	stupid inconsistency	overly obvious foreshadowing	acceptance of obviously inescapable danger	family at home is worried
USGS SWAT team	heavy-handed environmental message	random actually good actor	parent and child are the same age	oddly convenient prop
all knowing computer	'climate change' invoked	budget ran out before film length reached	unsuccessful character sacrifice	ethnic minority (for the movie) takes the lead role
malicious laser targeted nature	impossible view points	person in charge will doom us all	unexpected fighting skills	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)

B	I	N	G	O
ridiculous mcgyver	heroic sacrifice	uber religious guy starts freaking out	instant escalation to 11	family at home is worried
exploding people/gratuitous death	obviously over-the top numbers	obvious rich guy-money can't save you now	character jinxes themselves	omnipotent technology/technology does EVERYTHIN G-tricorder effect
scientist outside area of expertise	out of place scientist	throwaway reference to concurrent disasters elsewhere	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
all knowing computer	selectively malicious computer system	tragic backstory (2 points for flashback)	mutated/non-natural animal arrives/is made	no one notices the obvious
surprise death in first 5 minutes	'climate change' invoked	budget ran out before film length reached	only the characters with lines survive	actors obviously hate their lives

B	I	N	G	O
pointless antagonist	boob persuasion	terrible engineering	needless supernatural injection into the plot	omnipotent technology/technology does EVERYTHING-tricorder effect
bad sound effect (2 points for Wilhelm scream)	nature attacks for no reason	karmic death	not making use of obvious resources	scientist explains science to someone who can't/doesn't care/understand
terrible hacking	lack of resolution/abrupt ending	overly obvious foreshadowing	conspiracy theorist being right	character comes back from the dead
misused science terms	selectively malicious computer system	wild animals are smarter than the humans	obvious fanservice scene	common sense from the mouth of babes
military intervention	obvious main character in first 5 minutes	obvious rich guy-money can't save you now	mutated/non-natural animal arrives/is made	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)

B	I	N	G	O
malicious laser targeted nature	monument gets destroyed	tries for a sequel (2 points for actually having a sequel)	unsuccessful character sacrifice	jinx audience comment
broken physics	heroic sacrifice	budget ran out before film length reached	product placement	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
bad sound effect (2 points for Wilhelm scream)	lack of resolution/abrupt ending	karmic death	unexpected fighting skills	oddly convenient prop
misused science terms	'climate change' invoked	random actually good actor	president arrives	+1000 points if nobody dies
all knowing computer	actors trying too hard	terrible engineering	runs from obviously inescapable danger	5 seconds of screentime/spawnkill (x2 spawn camping)

B	I	N	G	O
exploding people/gratuitous death	monument gets destroyed	random famous actor	instant escalation to 11	unintentionally funny serious/intense scene
explosives solve all problems	out of place scientist	wild animals are smarter than the humans	unsuccessful character sacrifice	family at home is worried
poorly scripted love story	cliched music	throwaway reference to concurrent disasters elsewhere	mutated/non-natural animal arrives/is made	+1000 points if nobody dies
scientist outside area of expertise	killing off extras to keep budget low	power goes out for no reason	product placement	character comes back from the dead
unnecessary diversity	heavy-handed environmental message	tragic backstory (2 points for flashback)	president arrives	oddly convenient prop

B	I	N	G	O
broken physics	killing off extras to keep budget low	random actually good actor	unexpected survival skills	+1000 points if nobody dies
obvious reference to major movie	nature waits during drama scenes	tries for a sequel (2 points for actually having a sequel)	one physical trait defines the man	ommon sense from the mouth of babes
all knowing computer	obvious main character in first 5 minutes	death during sex/love scene	instant escalation to 11	jinx audience comment
pointless antagonist	monument gets destroyed	overly obvious foreshadowing	parent and child are the same age	CGI is AWFUL
scientist outside area of expertise	stupid inconsistency	flashback of previous scene of film to save money	misused prop/wtf is this prop	budget blown on one SUPER COOL scene/prop

B	I	N	G	O
ridiculous mcgyver	heroic sacrifice	wild animals freak the fuck out	unexpected survival skills	character comes back from the dead
misused science terms	nature attacks for no reason	uber religious guy starts freaking out	runs from obviously inescapable danger	family at home is worried
scientist outside area of expertise	obvious main character in first 5 minutes	person in charge will doom us all	mutated/non-natural animal arrives/is made	actors obviously hate their lives
pointless antagonist	lack of resolution/abrupt ending	power goes out for no reason	conspiracy theorist being right	they use the wrong units (or correct units incorrectly)
all knowing computer	cliched music	wild animals are smarter than the humans	parent and child are the same age	budget blown on one SUPER COOL scene/prop

B	I	N	G	O
broken physics	lack of resolution/abrupt ending	budget ran out before film length reached	conspiracy theorist being right	repeated narrowly dodged death
bullshit science terms	nature attacks for no reason	wild animals are smarter than the humans	parent and child are the same age	no one notices the obvious
misused science terms	boob persuasion	random famous actor	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	family at home is worried
reused CGI	cliched music	karmic death	unsuccessful character sacrifice	communication cuts out
malicious laser targeted nature	geography permanently changed	comic death	incredibly stupid of people	jinx audience comment

B	I	N	G	O
poorly scripted love story	monument gets destroyed	throwaway reference to concurrent disasters elsewhere	only the characters with lines survive	ethnic minority (for the movie) takes the lead role
longingly gazing at family photo	obligatory beach scene	needlessly serious injury	character jinxes themselves	ommon sense from the mouth of babes
terrible hacking	series of impassioned speeches	comic death	parent and child are the same age	someone defies rank to advance to plot
reused CGI	selectively malicious computer system	terrible engineering	mutated/non-natural animal arrives/is made	+1000 points if nobody dies
