killing off extras to keep budget low	'climate change' invoked	tries for a sequel (2 points for actually having a sequel)	unsuccessful character sacrifice	writers obviously checked out for the scene
ridiculous mcgyver	impossible view points	random famous actor	instant escalation to 11	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
misused science terms	obviously over-the top numbers	product placement	family at home is worried	budget blown on one SUPER COOL scene/prop
needlessly intense eye contact	terrible engineering	needlessly serious injury	oddly convenient prop	CGI is AWFUL

B	I	N	G	O
pointless antagonist	obligatory beach scene	needless supernatural injection into the plot	family at home is worried	nerds are virgins trope
all knowing computer	nature waits during drama scenes	incredibly stupid of people	unexpected survival skills	blatant lies
terrible hacking	nature attacks for no reason	needlessly serious injury	president arrives	nazis out of nowhere
poorly scripted love story	heroic sacrifice	obvious rich guy-money can't save you now	one physical trait defines the man	no one notices the obvious
misused science terms	obvious main character in first 5 minutes	random actually good actor	omnipotent technology/technology does EVERYTHING-tricorder effect	they use the wrong units (or correct units incorrectly)

B	I	N	G	O
USGS swat team	obvious main character in first 5 minutes	power goes out for no reason	communication cuts out	budget blown on one SUPER COOL scene/prop
bullshit science terms	karmic death	flashback of previous scene of film to save money	jinx audience comment	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
surprise death in first 5 minutes	nature attacks for no reason	overly obvious foreshadowing	runs from obviously inescapable danger	heavy-handed calm before/during the storm
malicious laser targeted nature	stupid inconsistency	budget ran out before film length reached	scientist explains science to someone who can't/doesn't care/understand	actors obviously hate their lives
longingly gazing at family photo	nature waits during drama scenes	throwaway reference to concurrent disasters elsewhere	instant escalation to 11	they use the wrong units (or correct units incorrectly)

B	I	N	G	O
unnecessary diversity	comic death	wild animals freak the fuck out	unsuccessful character sacrifice	no one notices the obvious
explosives solve all problems	geography permanently changed	needlessly serious injury	acceptance of obviously inescapable danger	they use the wrong units (or correct units incorrectly)
poorly scripted love story	actors trying too hard	random famous actor	communication cuts out	someone defies rank to advance to plot
pointless antagonist	stupid inconsistency	person in charge will doom us all	not making use of obvious resources	nerds are virgins trope
bad sound effect (2 points for Wilhelm scream)	series of impassioned speeches	power goes out for no reason	runs from obviously inescapable danger	exremely obvious plot twist

B	I	N	G	O
exploding people/gratuitous death	out of place scientist	random actually good actor	family at home is worried	nazis out of nowhere
needlessly intense eye contact	totally incompetent character does something important and fails	mutated/non-natural animal arrives/is made	misused prop/wtf is this prop	nerds are virgins trope
pointless antagonist	heavy-handed environmental message	character jinxes themselves	unexpected survival skills	they use the wrong units (or correct units incorrectly)
ridiculous mcgyver	karmic death	flashback of previous scene of film to save money	runs from obviously inescapable danger	no one notices the obvious
terrible hacking	impossible view points	death during sex/love scene	omnipotent technology/technology does EVERYTHING-tricorder effect	writers obviously checked out for the scene

ridiculous mcgyver	obligatory beach scene	paranoid conspiracy theorist starts freaking out	not making use of obvious resources	movie could have been over 30 minutes ago
scientist outside area of expertise	cliched music	overly obvious foreshadowing	communication cuts out	meaningful name

B	I	N	G	O
reused CGI	heroic sacrifice	tragic backstory (2 points for flashback)	obvious fanservice scene	blatant lies
terrible hacking	stupid inconsistency	power goes out for no reason	unintentionally funny serious/intense scene	common sense from the mouth of babes
misused science terms	series of impassioned speeches	uber religious guy starts freaking out	acceptance of obviously inescapable danger	actors obviously hate their lives
broken physics	impossible view points	mutated/non-natural animal arrives/is made	only the characters with lines survive	exremely obvious plot twist
exploding people/gratuitous death	obvious main character in first 5 minutes	character jinxes themselves	oddly convenient prop	what the fuck countdown

B	I	N	G	O
broken physics	actors trying too hard	tries for a sequel (2 points for actually having a sequel)	misused prop/wtf is this prop	common sense from the mouth of babes
explosives solve all problems	'climate change' invoked	paranoid conspiracy theorist starts freaking out	president arrives	ethnic minority (for the movie) takes the lead role
unnecessary diversity	impossible view points	wild animals are smarter than the humans	scientist explains science to someone who can't/doesn't care/understand	budget blown on one SUPER COOL scene/prop
obvious reference to major movie	nature waits during drama scenes	random famous actor	only the characters with lines survive	no one notices the obvious
needlessly intense eye contact	obviously over-the top numbers	character jinxes themselves	communication cuts out	nerds are virgins trope

B	I	N	G	O
obvious reference to major movie	heavy-handed environmental message	tragic backstory (2 points for flashback)	parent and child are the same age	they use the wrong units (or correct units incorrectly)
ridiculous mcgyver	comic death	obvious rich guy-money can't save you now	one physical trait defines the man	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
broken physics	karmic death	flashback of previous scene of film to save money	president arrives	CGI is AWFUL
scientist outside area of expertise	out of place scientist	character jinxes themselves	obvious fanservice scene	+1000 points if nobody dies (free)
lack of resolution/abrupt ending	geography permanently changed	death during sex/love scene	unsuccessful rule of cool	movie could have been over 30 minutes ago

B	I	N	G	O
exploding people/gratuitous death	actors trying too hard	overly obvious foreshadowing	unexpected survival skills	common sense from the mouth of babes
reused CGI	indestructible child/pet	random famous actor	not making use of obvious resources	+1000 points if nobody dies (free)
longingly gazing at family photo	impossible view points	tragic backstory (2 points for flashback)	jinx audience comment	nerds are virgins trope
surprise death in first 5 minutes	selectively malicious computer system	budget ran out before film length reached	only the characters with lines survive	movie could have been over 30 minutes ago
all knowing computer	nature waits during drama scenes	wild animals are smarter than the humans	scientist explains science to someone who can't/doesn't care/understand	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)

B	I	N	G	O
USGS swat team	boob persuasion	flashback of previous scene of film to save money	family at home is worried	disaster strikes at a festival
surprise death in first 5 minutes	indestructible child/pet	budget ran out before film length reached	acceptance of obviously inescapable danger	common sense from the mouth of babes
terrible hacking	out of place scientist	character jinxes themselves	instant escalation to 11	ethnic minority (for the movie) takes the lead role
unnecessary diversity	obviously over-the top numbers	needlessly serious injury	jinx audience comment	movie could have been over 30 minutes ago
ridiculous mcgyver	actors trying too hard	product placement	unintentionally funny serious/intense scene	repeated narrowly dodged death

B	I	N	G	O
ridiculous mcgyver	boob persuasion	person in charge will doom us all	not making use of obvious resources	exremely obvious plot twist
bad sound effect (2 points for Wilhelm scream)	karmic death	uber religious guy starts freaking out	communication cuts out	character comes back from the dead
terrible hacking	selectively malicious computer system	tries for a sequel (2 points for actually having a sequel)	unexpected survival skills	repeated narrowly dodged death
exploding people/gratuitous death	cliched music	death during sex/love scene	jinx audience comment	ethnic minority (for the movie) takes the lead role
explosives solve all problems	geography permanently changed	wild animals are smarter than the humans	acceptance of obviously inescapable danger	nazis out of nowhere

B	I	N	G	O
lack of resolution/abrupt ending	geography permanently changed	tragic backstory (2 points for flashback)	unintentionally funny serious/intense scene	character comes back from the dead
unnecessary diversity	monument gets destroyed	overly obvious foreshadowing	only the characters with lines survive	heavy-handed calm before/during the storm
killing off extras to keep budget low	obviously over-the top numbers	product placement	parent and child are the same age	writers obviously checked out for the scene
pointless antagonist	obvious main character in first 5 minutes	needless supernatural injection into the plot	communication cuts out	actors obviously hate their lives
longingly gazing at family photo	heavy-handed environmental message	obvious rich guy-money can't save you now	instant escalation to 11	what the fuck countdown

B	I	N	G	O
scientist outside area of expertise	stupid inconsistency	overly obvious foreshadowing	president arrives	heavy-handed calm before/during the storm
misused science terms	monument gets destroyed	random famous actor	unexpected fighting skills	ethnic minority (for the movie) takes the lead role
broken physics	cliched music	death during sex/love scene	instant escalation to 11	someone defies rank to advance to plot
USGS swat team	impossible view points	product placement	omnipotent technology/technology does EVERYTHING-tricorder effect	nazis out of nowhere
bullshit science terms	out of place scientist	throwaway reference to concurrent disasters elsewhere	unsuccessful rule of cool	common sense from the mouth of babes

B	I	N	G	O
reused CGI	karmic death	product placement	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	movie could have been over 30 minutes ago
needlessly intense eye contact	geography permanently changed	uber religious guy starts freaking out	unexpected survival skills	exremely obvious plot twist
obvious reference to major movie	actors trying too hard	incredibly stupid of people	president arrives	disaster strikes at a festival
poorly scripted love story	impossible view points	death during sex/love scene	family at home is worried	character comes back from the dead
military intervention	obvious main character in first 5 minutes	obvious rich guy-money can't save you now	scientist explains science to someone who can't/doesn't care/understand	no one notices the obvious

B	I	N	G	O

reused CGI	monument gets destroyed	wild animals freak the fuck out	jinx audience comment	repeated narrowly dodged death

B	I	N	G	O
obvious reference to major movie	comic death	wild animals freak the fuck out	5 seconds of screentime/spawnkill (x2 spawn camping)	blatant lies
surprise death in first 5 minutes	series of impassioned speeches	uber religious guy starts freaking out	obvious fanservice scene	character comes back from the dead
all knowing computer	impossible view points	needless supernatural injection into the plot	one physical trait defines the man	no one notices the obvious
pointless antagonist	geography permanently changed	needlessly serious injury	president arrives	they use the wrong units (or correct units incorrectly)
USGS swat team	actors trying too hard	product placement	unintentionally funny serious/intense scene	CGI is AWFUL

B	I	N	G	O
terrible hacking	obvious main character in first 5 minutes	throwaway reference to concurrent disasters elsewhere	oddly convenient prop	no one notices the obvious
misused science terms	'climate change' invoked	death during sex/love scene	not making use of obvious resources	character comes back from the dead
needlessly intense eye contact	nature attacks for no reason	uber religious guy starts freaking out	unexpected fighting skills	exremely obvious plot twist
lack of resolution/abrupt ending	karmic death	overly obvious foreshadowing	unintentionally funny serious/intense scene	heavy-handed calm before/during the storm
all knowing computer	out of place scientist	flashback of previous scene of film to save money	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	nerds are virgins trope

B	I	N	G	O
military intervention	obvious main character in first 5 minutes	obvious rich guy-money can't save you now	instant escalation to 11	CGI is AWFUL
unnecessary diversity	nature attacks for no reason	overly obvious foreshadowing	unintentionally funny serious/intense scene	what the fuck countdown
all knowing computer	obviously over-the top numbers	tragic backstory (2 points for flashback)	omnipotent technology/technology does EVERYTHING-tricorder effect	exremely obvious plot twist
surprise death in first 5 minutes	stupid inconsistency	random famous actor	president arrives	meaningful name
ridiculous mcgyver	impossible view points	paranoid conspiracy theorist starts freaking out	unexpected survival skills	actors obviously hate their lives

B	I	N	G	O
reused CGI	impossible view points	death during sex/love scene	parent and child are the same age	repeated narrowly dodged death
military intervention	geography permanently changed	conspiracy theorist being right	president arrives	writers obviously checked out for the scene
malicious laser targeted nature	monument gets destroyed	tragic backstory (2 points for flashback)	one physical trait defines the man	movie could have been over 30 minutes ago
lack of resolution/abrupt ending	totally incompetent character does something important and fails	budget ran out before film length reached	communication cuts out	what the fuck countdown
ridiculous mcgyver	heavy-handed environmental message	paranoid conspiracy theorist starts freaking out	obvious fanservice scene	unnecessary screen time extension (10 minutes minimum)

B	I	N	G	O
killing off extras to keep budget low	selectively malicious computer system	product placement	unsuccessful rule of cool	nazis out of nowhere
obvious reference to major movie	cliched music	needlessly serious injury	communication cuts out	writers obviously checked out for the scene
poorly scripted love story	impossible view points	power goes out for no reason	jinx audience comment	CGI is AWFUL
terrible hacking	obviously over-the top numbers	flashback of previous scene of film to save money	obvious fanservice scene	blatant lies
scientist outside area of expertise	boob persuasion	paranoid conspiracy theorist starts freaking out	5 seconds of screentime/spawnkill (x2 spawn camping)	no one notices the obvious

B	I	N	G	O
malicious laser targeted nature	selectively malicious computer system	random actually good actor	parent and child are the same age	blatant lies
obvious reference to major movie	heroic sacrifice	random famous actor	unsuccessful rule of cool	exremely obvious plot twist
surprise death in first 5 minutes	indestructible child/pet	power goes out for no reason	instant escalation to 11	nazis out of nowhere
scientist outside area of expertise	out of place scientist	needlessly serious injury	unsuccessful character sacrifice	disaster strikes at a festival
needlessly intense eye contact	totally incompetent character does something important and fails	needless supernatural injection into the plot	unexpected survival skills	heavy-handed calm before/during the storm

B	I	N	G	O
bullshit science terms	heroic sacrifice	random actually good actor	unexpected fighting skills	budget blown on one SUPER COOL scene/prop
terrible hacking	actors trying too hard	throwaway reference to concurrent disasters elsewhere	family at home is worried	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
military intervention	indestructible child/pet	tries for a sequel (2 points for actually having a sequel)	instant escalation to 11	they use the wrong units (or correct units incorrectly)
explosives solve all problems	series of impassioned speeches	uber religious guy starts freaking out	unsuccessful rule of cool	meaningful name
reused CGI	karmic death	power goes out for no reason	acceptance of obviously inescapable danger	+1000 points if nobody dies (free)

B	I	N	G	O
needlessly intense eye contact	nature attacks for no reason	tragic backstory (2 points for flashback)	jinx audience comment	nerds are virgins trope
killing off extras to keep budget low	'climate change' invoked	needless supernatural injection into the plot	unexpected fighting skills	heavy-handed calm before/during the storm
longingly gazing at family photo	series of impassioned speeches	uber religious guy starts freaking out	omnipotent technology/technology does EVERYTHING-tricorder effect	blatant lies
malicious laser targeted nature	cliched music	tries for a sequel (2 points for actually having a sequel)	one physical trait defines the man	actors obviously hate their lives
surprise death in first 5 minutes	karmic death	wild animals freak the fuck out	family at home is worried	disaster strikes at a festival

B	I	N	G	O
malicious laser targeted nature	'climate change' invoked	wild animals freak the fuck out	unexpected survival skills	they use the wrong units (or correct units incorrectly)
military intervention	obvious main character in first 5 minutes	wild animals are smarter than the humans	runs from obviously inescapable danger	CGI is AWFUL
lack of resolution/abrupt ending	out of place scientist	power goes out for no reason	scientist explains science to someone who can't/doesn't care/understand	repeated narrowly dodged death
USGS swat team	stupid inconsistency	tries for a sequel (2 points for actually having a sequel)	omnipotent technology/technology does EVERYTHING-tricorder effect	writers obviously checked out for the scene
reused CGI	heavy-handed environmental message	product placement	acceptance of obviously inescapable danger	blatant lies

B	I	N	G	O
surprise death in first 5 minutes	geography permanently changed	wild animals freak the fuck out	president arrives	disaster strikes at a festival
scientist outside area of expertise	actors trying too hard	needless supernatural injection into the plot	family at home is worried	ethnic minority (for the movie) takes the lead role
needlessly intense eye contact	heroic sacrifice	tragic backstory (2 points for flashback)	5 seconds of screentime/spawnkill (x2 spawn camping)	movie could have been over 30 minutes ago
USGS swat team	impossible view points	product placement	misused prop/wtf is this prop	common sense from the mouth of babes
terrible hacking	karmic death	overly obvious foreshadowing	omnipotent technology/technology does EVERYTHING-tricorder effect	nazis out of nowhere

B	I	N	G	O
unnecessary diversity	nature waits during drama scenes	tragic backstory (2 points for flashback)	unexpected fighting skills	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
obvious reference to major movie	geography permanently changed	needless supernatural injection into the plot	jinx audience comment	CGI is AWFUL
explosives solve all problems	indestructible child/pet	paranoid conspiracy theorist starts freaking out	not making use of obvious resources	exremely obvious plot twist
pointless antagonist	out of place scientist	flashback of previous scene of film to save money	unsuccessful rule of cool	budget blown on one SUPER COOL scene/prop
all knowing computer	heavy-handed environmental message	conspiracy theorist being right	unsuccessful character sacrifice	common sense from the mouth of babes

B	I	N	G	O
pointless antagonist	boob persuasion	person in charge will doom us all	5 seconds of screentime/spawnkill (x2 spawn camping)	budget blown on one SUPER COOL scene/prop
unnecessary diversity	impossible view points	mutated/non-natural animal arrives/is made	not making use of obvious resources	writers obviously checked out for the scene
terrible hacking	monument gets destroyed	throwaway reference to concurrent disasters elsewhere	jinx audience comment	character comes back from the dead
USGS swat team	cliched music	wild animals freak the fuck out	parent and child are the same age	+1000 points if nobody dies (free)
killing off extras to keep budget low	comic death	death during sex/love scene	unexpected survival skills	someone defies rank to advance to plot

B	I	N	G	O
reused CGI	totally incompetent character does something important and fails	person in charge will doom us all	family at home is worried	nazis out of nowhere
malicious laser targeted nature	obvious main character in first 5 minutes	character jinxes themselves	unsuccessful rule of cool	writers obviously checked out for the scene
exploding people/gratuitous death	obligatory beach scene	overly obvious foreshadowing	obvious fanservice scene	common sense from the mouth of babes
unnecessary diversity	heroic sacrifice	uber religious guy starts freaking out	instant escalation to 11	ethnic minority (for the movie) takes the lead role
misused science terms	series of impassioned speeches	power goes out for no reason	scientist explains science to someone who can't/doesn't care/understand	nerds are virgins trope

killing off extras to keep budget low	out of place scientist	flashback of previous scene of film to save money	one physical trait defines the man	ethnic minority (for the movie) takes the lead role
needlessly intense eye contact	obviously over-the top numbers	person in charge will doom us all	president arrives	unnecessary screen time extension (10 minutes minimum)
surprise death in first 5 minutes	comic death	uber religious guy starts freaking out	unexpected fighting skills	blatant lies
bullshit science terms	heroic sacrifice	paranoid conspiracy theorist starts freaking out	family at home is worried	meaningful name

B	I	N	G	O
longingly gazing at family photo	stupid inconsistency	overly obvious foreshadowing	only the characters with lines survive	character comes back from the dead
pointless antagonist	impossible view points	conspiracy theorist being right	unexpected survival skills	someone defies rank to advance to plot
explosives solve all problems	comic death	needless supernatural injection into the plot	omnipotent technology/technology does EVERYTHING-tricorder effect	what the fuck countdown
malicious laser targeted nature	boob persuasion	paranoid conspiracy theorist starts freaking out	instant escalation to 11	nerds are virgins trope
surprise death in first 5 minutes	nature attacks for no reason	flashback of previous scene of film to save money	unintentionally funny serious/intense scene	writers obviously checked out for the scene

B	I	N	G	O
scientist outside area of expertise	series of impassioned speeches	random actually good actor	instant escalation to 11	+1000 points if nobody dies (free)
explosives solve all problems	nature waits during drama scenes	needless supernatural injection into the plot	family at home is worried	disaster strikes at a festival
terrible hacking	monument gets destroyed	incredibly stupid of people	obvious fanservice scene	no one notices the obvious
misused science terms	cliched music	conspiracy theorist being right	only the characters with lines survive	meaningful name
killing off extras to keep budget low	impossible view points	person in charge will doom us all	not making use of obvious resources	unnecessary screen time extension (10 minutes minimum)

B	I	N	G	O
			sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	
explosives solve all problems	'climate change' invoked	mutated/non-natural animal arrives/is made		writers obviously checked out for the scene
malicious laser targeted nature	monument gets destroyed	wild animals freak the fuck out	not making use of obvious resources	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
broken physics	selectively malicious computer system	conspiracy theorist being right	family at home is worried	disaster strikes at a festival
reused CGI	cliched music	budget ran out before film length reached	one physical trait defines the man	exremely obvious plot twist
pointless antagonist	karmic death	death during sex/love scene	runs from obviously inescapable danger	+1000 points if nobody dies (free)

B	I	N	G	O
scientist outside area of expertise	nature attacks for no reason	uber religious guy starts freaking out	not making use of obvious resources	blatant lies
surprise death in first 5 minutes	obvious main character in first 5 minutes	needlessly serious injury	runs from obviously inescapable danger	nazis out of nowhere
killing off extras to keep budget low	geography permanently changed	needless supernatural injection into the plot	one physical trait defines the man	character comes back from the dead
lack of resolution/abrupt ending	boob persuasion	random actually good actor	unsuccessful rule of cool	heavy-handed calm before/during the storm
poorly scripted love story	karmic death	obvious rich guy-money can't save you now	communication cuts out	CGI is AWFUL

B	I	N	G	O
malicious laser targeted nature	actors trying too hard	random actually good actor	scientist explains science to someone who can't/doesn't care/understand	ethnic minority (for the movie) takes the lead role
USGS swat team	heavy-handed environmental message	budget ran out before film length reached	omnipotent technology/technology does EVERYTHING-tricorder effect	blatant lies
reused CGI	cliched music	character jinxes themselves	obvious fanservice scene	meaningful name
exploding people/gratuitous death	nature waits during drama scenes	uber religious guy starts freaking out	unsuccessful character sacrifice	no one notices the obvious
bad sound effect (2 points for Wilhelm scream)	indestructible child/pet	flashback of previous scene of film to save money	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	repeated narrowly dodged death

B	I	N	G	O
bad sound effect (2 points for Wilhelm scream)	comic death	flashback of previous scene of film to save money	one physical trait defines the man	common sense from the mouth of babes
longingly gazing at family photo	indestructible child/pet	paranoid conspiracy theorist starts freaking out	omnipotent technology/technology does EVERYTHING-tricorder effect	movie could have been over 30 minutes ago
explosives solve all problems	geography permanently changed	needless supernatural injection into the plot	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	actors obviously hate their lives
broken physics	obligatory beach scene	tries for a sequel (2 points for actually having a sequel)	president arrives	exremely obvious plot twist
misused science terms	cliched music	character jinxes themselves	instant escalation to 11	heavy-handed calm before/during the storm

B	I	N	G	O
malicious laser targeted nature	nature waits during drama scenes	tragic backstory (2 points for flashback)	omnipotent technology/technology does EVERYTHING-tricorder effect	blatant lies

killing off extras to keep budget low	nature waits during drama scenes	tragic backstory (2 points for flashback)	not making use of obvious resources	nazis out of nowhere
military intervention	obligatory beach scene	tries for a sequel (2 points for actually having a sequel)	parent and child are the same age	meaningful name

B	I	N	G	O
USGS swat team	heroic sacrifice	tragic backstory (2 points for flashback)	oddly convenient prop	disaster strikes at a festival
malicious laser targeted nature	cliched music	character jinxes themselves	jinx audience comment	someone defies rank to advance to plot
lack of resolution/abrupt ending	series of impassioned speeches	mutated/non-natural animal arrives/is made	communication cuts out	no one notices the obvious
reused CGI	indestructible child/pet	product placement	one physical trait defines the man	actors obviously hate their lives
misused science terms	geography permanently changed	flashback of previous scene of film to save money	scientist explains science to someone who can't/doesn't care/understand	common sense from the mouth of babes

B	I	N	G	O
surprise death in first 5 minutes	heroic sacrifice	random actually good actor	not making use of obvious resources	heavy-handed calm before/during the storm
obvious reference to major movie	totally incompetent character does something important and fails	tries for a sequel (2 points for actually having a sequel)	jinx audience comment	actors obviously hate their lives
killing off extras to keep budget low	nature waits during drama scenes	power goes out for no reason	unintentionally funny serious/intense scene	character comes back from the dead
explosives solve all problems	heavy-handed environmental message	person in charge will doom us all	communication cuts out	disaster strikes at a festival
military intervention	obvious main character in first 5 minutes	random famous actor	runs from obviously inescapable danger	common sense from the mouth of babes

B	I	N	G	O
poorly scripted love story	karmic death	wild animals freak the fuck out	unexpected fighting skills	CGI is AWFUL
needlessly intense eye contact	terrible engineering	person in charge will doom us all	runs from obviously inescapable danger	no one notices the obvious
lack of resolution/abrupt ending	nature attacks for no reason	tries for a sequel (2 points for actually having a sequel)	omnipotent technology/technology does EVERYTHING-tricorder effect	common sense from the mouth of babes
unnecessary diversity	stupid inconsistency	obvious rich guy-money can't save you now	obvious fanservice scene	ethnic minority (for the movie) takes the lead role
bullshit science terms	obvious main character in first 5 minutes	overly obvious foreshadowing	instant escalation to 11	heavy-handed calm before/during the storm

B	I	N	G	O
obvious reference to major movie	stupid inconsistency	throwaway reference to concurrent disasters elsewhere	obvious fanservice scene	common sense from the mouth of babes
exploding people/gratuitous death	geography permanently changed	flashback of previous scene of film to save money	one physical trait defines the man	budget blown on one SUPER COOL scene/prop
terrible hacking	comic death	tragic backstory (2 points for flashback)	sentimental gift (x2 bonus points if giver dies) (x2 bonus points if receiver dies) (x2 bonus points if gift is returned) (x2 bonus points if gift saves lives of receiver) (x2 if regifted)	movie could have been over 30 minutes ago
pointless antagonist	obligatory beach scene	product placement	president arrives	character comes back from the dead
surprise death in first 5 minutes	karmic death	random actually good actor	only the characters with lines survive	meaningful name

B	I	N	G	O
poorly scripted love story	obligatory beach scene	tries for a sequel (2 points for actually having a sequel)	unsuccessful character sacrifice	actors obviously hate their lives
malicious laser targeted nature	karmic death	product placement	scientist explains science to someone who can't/doesn't care/understand	meaningful name
scientist outside area of expertise	obvious main character in first 5 minutes	random famous actor	runs from obviously inescapable danger	heavy-handed calm before/during the storm
lack of resolution/abrupt ending	terrible engineering	paranoid conspiracy theorist starts freaking out	parent and child are the same age	budget blown on one SUPER COOL scene/prop
surprise death in first 5 minutes	actors trying too hard	character jinxes themselves	misused prop/wtf is this prop	exremely obvious plot twist

B	I	N	G	O
explosives solve all problems	cliched music	needlessly serious injury	one physical trait defines the man	budget blown on one SUPER COOL scene/prop
all knowing computer	heroic sacrifice	random actually good actor	unexpected survival skills	meaningful name
unnecessary diversity	selectively malicious computer system	throwaway reference to concurrent disasters elsewhere	misused prop/wtf is this prop	+1000 points if nobody dies (free)

surprise death in first 5 minutes	geography permanently changed	random famous actor	parent and child are the same age	nazis out of nowhere

B	I	N	G	O
unnecessary diversity	series of impassioned speeches	conspiracy theorist being right	not making use of obvious resources	actors obviously hate their lives
terrible hacking	monument gets destroyed	power goes out for no reason	obvious fanservice scene	budget blown on one SUPER COOL scene/prop
bullshit science terms	obligatory beach scene	throwaway reference to concurrent disasters elsewhere	unintentionally funny serious/intense scene	they use the wrong units (or correct units incorrectly)
poorly scripted love story	comic death	product placement	only the characters with lines survive	blatant lies
military intervention	heroic sacrifice	wild animals are smarter than the humans	runs from obviously inescapable danger	someone defies rank to advance to plot

B	I	N	G	O
longingly gazing at family photo	heavy-handed environmental message	wild animals are smarter than the humans	instant escalation to 11	exremely obvious plot twist
broken physics	comic death	incredibly stupid of people	not making use of obvious resources	nazis out of nowhere
reused CGI	geography permanently changed	throwaway reference to concurrent disasters elsewhere	unsuccessful character sacrifice	meaningful name
terrible hacking	cliched music	flashback of previous scene of film to save money	5 seconds of screentime/spawnkill (x2 spawn camping)	someone defies rank to advance to plot
bad sound effect (2 points for Wilhelm scream)	nature waits during drama scenes	paranoid conspiracy theorist starts freaking out	family at home is worried	character comes back from the dead

B	I	N	G	O
pointless antagonist	heavy-handed environmental message	flashback of previous scene of film to save money	oddly convenient prop	nerds are virgins trope
needlessly intense eye contact	obviously over-the top numbers	power goes out for no reason	5 seconds of screentime/spawnkill (x2 spawn camping)	main character is divorced/separated (2 point bonus if with kids) (x2 if they get back together)
obvious reference to major movie	indestructible child/pet	character jinxes themselves	unsuccessful rule of cool	no one notices the obvious
unnecessary diversity	terrible engineering	product placement	only the characters with lines survive	writers obviously checked out for the scene
terrible hacking	impossible view points	needless supernatural injection into the plot	president arrives	movie could have been over 30 minutes ago

B	I	N	G	O
exploding people/gratuitous death	monument gets destroyed	uber religious guy starts freaking out	family at home is worried	meaningful name
obvious reference to major movie	stupid inconsistency	conspiracy theorist being right	only the characters with lines survive	nerds are virgins trope
needlessly intense eye contact	indestructible child/pet	obvious rich guy-money can't save you now	obvious fanservice scene	someone defies rank to advance to plot
lack of resolution/abrupt ending	karmic death	tragic backstory (2 points for flashback)	jinx audience comment	what the fuck countdown
longingly gazing at family photo	heroic sacrifice	wild animals freak the fuck out	acceptance of obviously inescapable danger	actors obviously hate their lives

B	I	N	G	O
military intervention	boob persuasion	paranoid conspiracy theorist starts freaking out	only the characters with lines survive	nazis out of nowhere
malicious laser targeted nature	monument gets destroyed	conspiracy theorist being right	not making use of obvious resources	nerds are virgins trope
exploding people/gratuitous death	terrible engineering	throwaway reference to concurrent disasters elsewhere	unexpected survival skills	common sense from the mouth of babes
pointless antagonist	out of place scientist	product placement	runs from obviously inescapable danger	unnecessary screen time extension (10 minutes minimum)
bad sound effect (2 points for Wilhelm scream)	impossible view points	incredibly stupid of people	unsuccessful character sacrifice	disaster strikes at a festival

B	I	N	G	O
ridiculous mcgyver	monument gets destroyed	death during sex/love scene	unintentionally funny serious/intense scene	unnecessary screen time extension (10 minutes minimum)
unnecessary diversity	actors trying too hard	person in charge will doom us all	jinx audience comment	ethnic minority (for the movie) takes the lead role
lack of resolution/abrupt ending	'climate change' invoked	character jinxes themselves	parent and child are the same age	repeated narrowly dodged death
obvious reference to major movie	impossible view points	mutated/non-natural animal arrives/is made	unsuccessful character sacrifice	someone defies rank to advance to plot
broken physics	comic death	conspiracy theorist being right	oddly convenient prop	character comes back from the dead

B	I	N	G	O
